## Video Presentation Camera w/ video and XGA outputs - Aver 300AF+

For Iowa Customers only. Includes built-in, LED positioning laser guides. The ability to display documents, 3-D objects, microscopic images and more through virtually any multimedia projector, monitor or TV. 3.2 mega pixel camera sensor, video is sharp and precise. The fast auto focus capabilities allow teachers to instantly focus on text, pictures or objects without time consuming focal adjustments, even when using the digital or AVERZOOM features. The high 24 fps frame rate projects video of moving objects significantly reducing blur or distortion. Annotation features allow teachers to easily add notes, create drawings, highlight important details, or even erase aspects of the live projected images directly from a PC or MAC. With the additional audio recording feature included in the new AVerVision software, teachers can now record video with narration of a live dissection or sculpting a clay pot. The mechanical arm design provides increased stability and ease-of-use with the ability to fold down into a compact configuration for easy transport and storage.

**ActivView Visual Presenter - Promethean AV322**

Pricing for this product is for Iowa Customers only.

ActiView Visual Presenter Puts any object under ActiView's gooseneck-mounted lens and lamp combination and your treasures, text, even flora and fauna are projected in vivid detail on the ActivBoard. Examine the smallest shell with automatic zoom and focus. Capture still-frames or the fluid motion of waving butterfly wings, then save to a computer for future inspiration. Share your work with the entire classroom or build an image library of everyday objects and extraordinary finds for use in your lessons. ActiView puts the whole wide world on display.

**Interactive Whiteboard, Dymo/Mimio View - DYMO/Mimio MimioView / Midwest Computer Products, Inc.**

For Iowa customers only. This item was bid by the manufacturer, Mimio. Multiple vendors are able to offer the same price for all Mimio products.  
Please choose and make your PO out to one of those vendor when ordering.

- 14930 Midwest Computer Products, Inc.
- 14940 Berg Audio & Video
- 14950 V.i.P.S.
- 14960 Rick's Computers, Inc.
- 14970 EduTek Midwest Inc.
- 14980 Engaging Technologies, LLC

The MimioView document camera is fully integrated with MimioStudio software and the MimioTeach system, making it easier than ever to capture images and present them in your lessons. Enjoy effortless setup - just connect the camera to a USB port on your computer and you're ready to capture images. Forget about dealing with other power sources and wall cords. Annotate images, turn them into files, or save them for future use. Give presentations for students while they remain in their seats. Included: MimioStudio software; MimioView Camera 5.5x manual and 16x digital zoom, 1600 x 1200 optical resolution, Auto-focus and color balance, Freeze function, Microscope adapter; 2 adjustable LED light sources; 1 "micro-B" USB connector (3 meters /10 feet); Straight-edge alignment; Flexible gooseneck.
