COMPUTER NETWORKING: Virtual Desktops

Virtual Desktop - NComputing L130

L130 dramatically cuts computing costs by sharing the untapped power of standard PCs. Best of all, IT staff and end users do not need special training because our solutions are easy to manage, eco-friendly and compatible with standard PC applications. And like all of L series, the L130 can use standard Ethernet infrastructure, so that your users can be located as far away from your shared PCs as you need them to be. The new L130 brings enhanced graphics performance (with improved color depth and widescreen support) and a microphone port in a stylish new smaller chassis (just 1 inch tall and 4.5 inches square) that takes absolutely no desktop space at all when mounted to the back of a monitor. Of course, L130 includes VGA support (resolutions up to 1280x1024 or 1440x900 for widescreen), an Ethernet connection, PS/2 keyboard and mouse ports, audio output, and power cable connections. Includes a 3 yr warranty.

Order # 19090

Co-op Price: \$145.36

MSRP: \$199.00

Vendor: MNJ Technologies Direct, Inc.

Virtual Desktop - NComputing X350

NComputing X-series virtual desktops; Up to eleven users can simultaneously share a single PC. Each user gets their own virtual workspace (applications, settings, files, and preferences), but at a fraction of what it would cost with individual computers. So even though eleven people share a single system, they each get their own rich PC experience.

Virtual Desktop - nComputing X550 9208799

Software applications run simultaneously and independently on each virtual desktop. Users don't even know they are sharing a PC! And most applications run right out of the box, so your staff and users don't need special training. They will also love getting their desk space back - the XD2 access devices are tiny, silent, and have no moving parts. Yet they give each user a rich Windows or Linux workspace. Users enjoy multimedia with sound and full-motion video at screen resolutions of up to 1280 x 1024 or 1440 x 900 (widescreen). With the NComputing X550, you can easily lower your computing acquisition and support costs by up to 70%. You will also save money on electricity - the highly efficient X550 uses only 1-watt per added user. Includes a 3 yr warranty.

Order # 19130

Co-op Price: \$365.65

MSRP: \$399.00

Virtual Desktop - nComputing X550 PCI card and VSPACE - 500-0083 10178582

The X550 PCI card kit for LG N-series monitors is ideal for classrooms and computer labs, business, government, and public access. Absolutely - the PCs are so powerful that the vast majority of people use only a small fraction of their available computing power. The X550 taps the unused capacity so that up to eleven users can simultaneously share a single PC. Each user gets their own virtual workspace (applications, settings, files, and preferences), but at a fraction of what it would cost with individual computers. So even though eleven people share a single system, they each get their own rich PC experience.

Order # 19150
