HAND HELD LEARNING DEVICES: Audience Response System

Student Response System - Classroom Performance System Complete IR 1 - 24 Pad set

elInstruction's Classroom Performance System (CPS) is one of best ways you will find to drive daily academic progress. CPS is the leading student response system in education, being used with over 4 million students in more than 100,000 K-12 and higher education classrooms and lecture halls. CPS IR combines durable hardware with the powerful CPS software to create an interactive learning environment in any classroom. With eight alphabetical buttons, students can answer multiple-choice questions and navigate through student-managed assessments. This system is durable, portable, and comes with a 5 year warranty. CPS IR is ideal for a classroom of up to 64 students. The response pad operates on two AAA batteries. The battery life, with normal usage, will extend beyond a year.

Student Response System - Classroom Performance System CPS Spark, Complete RF 1 -24 Pad set

CPS Spark is the most recent radio-frequency student response system available. It offers an easy-to-use interface that makes it simple and more intuitive to use. CPS Spark is backed by eInstruction's CPS and Response software, so it offers the full power of eInstruction's award winning software. CPS Spark is fully integrated with ExamView Assessment suite and ExamView Learning Series so you can easily deliver state and Common Core State Standards aligned content and receive real-time feedback. This allows for a better understanding of student performance so educators know when and where they need to remediate. Sleep mode after 3 minutes helps save the battery.

Scientific Calculator - Texas Instruments TI36XPRO

D&H payment terms of net 30 days from the date of invoice. TI's latest and most advanced scientific calculator features a high-quality MultiView display and MathPrint capability. Enhanced math functionality makes it ideal for computer science and engineering courses and topics in which graphing technology may not be permitted. Ideal for: Algebra 1 & 2, Geometry, Trigonometry, Statistics, Precalculus, Biology, Physics, Computer Science, Math, College Science, College Engineering. MultiView display View multiple calculations at the same time, compare results and explore patterns on-screen. The MultiView display supports up to four lines. MathPrint feature, See math expressions, symbols and stacked fractions exactly the way they appear in textbooks, no need to adapt to a technical syntax. Also provides quick access to frequently used functions. Scrolling and editing, Easily input data, scroll through entries, make edits and investigate patterns as you would on a graphing calculator. Toggle key, Quickly view fractions, decimals and terms including Pi, in alternate forms while exploring more advanced topics.

Order # 19830

Co-op Price: \$16.81

MSRP: \$25.00

Vendor: D & H Distributing Co.

Scientific Solar Calculator - Texas Instruments TI36XSolar

D&H payment terms of net 30 days from the date of invoice. Useful for advanced algebra, trigonometry, computer science, chemistry, and statistics. This durable calculator is a great combination of advanced scientific functions and solar power. Ideal for Algebra 1 & 2, Geometry, Trigonometry, Statistics, Calculus, Computer Science, Biology, Chemistry, Physics, Engineering. Key features Solar power Operates in low light; never needs batteries. One- and two-variable statistics; Includes results for linear regression and trend line analysis. Fraction features Adds, subtracts, multiplies, and divides fractions entered in traditional numerator/denominator format. 3 Memories; 10 English/Metric Conversions; 8 physical constants.

Order # 19840

Co-op Price: \$16.81

MSRP: \$25.00

Graphing Calculator - Texas Instruments TI73EXPLORER Pkg/1

D&H payment terms of net 30 days from the date of invoice. Stacked fractions. Seven (7) statistical plots: pictographs, pie charts, bar charts, and more. Scrollable home screen. Four (4) constant features. English and metric conversions. Compatible with the Calculator-Based Laboratory (CBL2) and Calculator-Based Ranger (CBR) Systems to allow collection and analysis of real-world data. Applications available from TI, Sunburst Software, and others. More advanced functions accessed through pull-down menus. 14-digit accuracy displayed to 10-digits with 2-digit exponent. Graphs four (4) functions simultaneously. Send and receive lists and variables to and from the TI-82, TI-83 and TI-83 Plus. Up to seven (7) graph styles: thin, thick, animate, animate with path, and more. User-defined list names, stores up to 999 elements. Thirteen (13) zoom features.

Graphing Calculator - Texas Instruments TI83PLUS Pkg/1

D&H payment terms of net 30 days from the date of invoice. Applications will be available from TI and other leading developers. 8-line by 16-character display. Advanced functions accessed through pull-down display menus. Real and complex numbers calculated to 14-digit accuracy and displayed with 10 digits plus a 2-digit exponent. Graphs 10 rectangular functions, 6 parametric expressions, 6 polar expressions, and recursively-defined sequences. Up to 10 graphing functions defined, saved, graphed, and analyzed at one time. Sequence graphing mode shows time series plot, cobweb/ stair-step plot, and phase plots. User-defined list names. Lists store up to 999 elements. 14 interactive zoom features. Interactive analysis of function values, roots, maximums, minimums, integrals, and derivatives. 7 different graph styles for differentiating the look of each graph drawn. Horizontal and vertical split-screen options. Advanced statistics features.

Graphing Calculator - Texas Instruments TINSPIRECX Pkg/1

D&H payment terms of net 30 days from the date of invoice. Color Screen, Thin Design, Rechargeable Battery. Stay mobile, continue learning. Transfer class assignments from handheld to computer (PC & Mac). Complete work outside of school using student software. Visualize in full color - Color-code equations, objects, points and lines on the full-color, backlit display. Make faster, stronger connections between equations, graphs and geometric representations on screen. Real-world images - Use digital images or your own photos. Overlay and color-code math and science concepts. Discover real-world connections. Recharge with ease - The TI-Nspire Rechargeable Battery, installed with the handheld, is expected to last up to two weeks of normal use on a single charge. No alkaline batteries needed. Calculate in style - The sleek TI-Nspire CX handheld is the thinnest and lightest TI graphing calculator model to date. The brightest with a high-resolution, full-color display that makes it easy to see every exponent, variable and line. 3D Graphing - Graph and rotate (manually and automatically) 3D functions. Change the wire or surface color of your 3D graph.

Verneir EasyTemp USB Temperature Sensor - Vernier EZTEMP

D&H payment terms of net 30 days from the date of invoice. The Vernier EasyTemp is a rugged, general-purpose temperature sensor that connects directly to a TI-84 Plus or TI-84 Plus Silver Edition calculator. Its stainless steel housing and temperature range (-20°C to 110°C) make it perfect for a variety of activities in science and math. Just plug the EasyTemp into your calculator and watch your temperature data graphed in real time! There's no need to manually record temperatures during an experiment. Let your TI-84 Plus do it. EasyTemp has a mini-A USB connector that allows you to attach the temperature probe directly to the USB port of a TI-84 Plus or TI-84 Plus Silver Edition calculator. If the Vernier EasyData application is installed on the calculator, all you have to do is attach the probe to the calculator. EasyData will automatically start, and you are now ready to collect data.
