DVD Player - Panasonic DVDS68K

The DVD-S68 features a 1080p up-conversion function that converts standard definition (720 x 480 pixels) images from DVD sources to high-definition (1920 x 1080 pixels) quality images. And with the addition of HDMI 1.3 with Deep Color to our DVD players, the up-converted signals deliver vivid, sharp and exceptionally detailed images. Play Almost Anything. Incredibly versatile and multi-format-friendly, this DVD player can play back just about any DVD or CD you can throw at it. Specifically, it can play back the following disc formats: DVD-Video, DVD-RW, DVD-R (including dual layer), DVD+R (including dual layer), DVD+RW, CD, CD-R/RW, WMA, MP3, JPEG, MPEG4. USB Slot with Playback for JPEG and MP3. Includes HDMI Output, Video Out, HDMI-CEC, USB 2.0, Component Video Out, Analog Audio. Black.

VIDEO: DVD / VCR Combo

DVD Video Recorder + VCR, No Tuner - Toshiba DVR620

External tuner source required to record television programming. Combines the convenient recording¹ and playback options of a DVD recorder and a VCR all in one unit. Multi-format recording and playback² provides the utmost in recording media convenience with compatibility with the most popular formats (DVD-R, DVD-RW, DVD+R, DVD+RW). Video upconversion up to 1080p3 resolution via HDMI takes your current DVDs to a new level, for an amazing viewing experience on today's HDTVs. One Touch Recording¹ makes recording your favorite show simple. Just connect the DVR620 to your cable or satellite box and you are set to record with the push of one button! Front DV Input makes it easy to save your precious memories to DVD. Auto Finalize with Undo simplifies the recording process by automatically finalizing your recording for playback on standard DVD players. Bi-directional dubbing lets you copy from tape to disc, or vice versa, with the push of one button.

65" LED HDTV with Multi-Media PC/DVD/TV Inputs - Toshiba 65UL610

Toshiba 65UL610U Cinema Series - 65" class 1080p 480Hz 3D LED TV; Product Highlights; NTSC/ATSC/Clear QAM tuner; 3D Capability; 1080p Full HD; HDMI Ports x 4; Fine Local Dimming; CrystalCoat; Energy Saving TV; Gaming Mode; InstaPort Connectivity; Internet TV Apps; Built-In Wi-Fi. Toshiba's 65UL610U 65" Class 1080p 3D LED TV is one of those ultra slim 3D TVs you've been hearing so much about. Not only can it display 1080p high definition signals, it can do so in 3D. Whether you're watching 2D or 3D programming you'll enjoy an image with high contrast and natural colors thanks to the ClearScan 480 technology. But then this set was designed for the most demanding videophile. Its four HDMI 1.4 inputs ensure that signals will stay in pure digital form from source to set. And you can control components that are compatible from a single remote control. Two USB ports allow for playback of video, music, and photos via the USB port. Illuminated Remote Control; VESA (400 x 400mm); Dimensions (WxHxD) Without Stand: 58.7 x 38.7 x 1.1"; 60.9 lbs. 1 Yr. warranty.

VIDEO: Surge Suppression

Audio/Video Power Center w/ Surge Suppression - Monster MPAV800

8 outlets, 1 coax; Monster Multiple Surge Guard Circuitry absorbs harmful power surges to give you Audio Video System Protection. Harmful power surges and voltage spikes can travel up AC power and coax connections and damage your components. Ordinary surge protectors often fail to provide the adequate level of protection your AV components need. Plus, standard surge protectors often cause as much as 20 to 30dB of signal loss which can adversely affect the output performance levels of coax connections. Proper connection to an advanced surge protector that offers integrated system protection can help minimize the risk of permanent surge damage. Unlike standard surge protectors, the Monster PowerCenter™ AV800 with SurgeGuard™ protection provides multiple layers of defense against harmful surges. Strategically placed multiple Metal Oxide Varistors respond within one nanosecond (a billionth of a second) to power surges and voltage spikes before they can reach and damage your audio video components. Plus, Monster's ultra-low loss RF circuitry minimizes signal loss to maintain the peak output performance of your coax connections.
